

Fuse

by ALLEN & OVERY

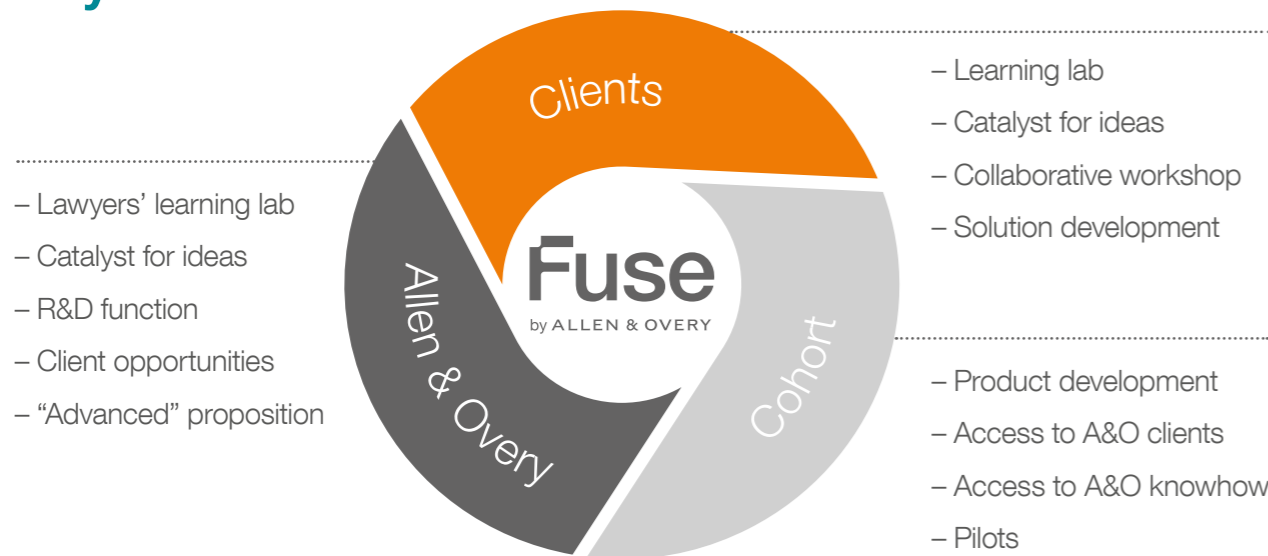

Allen & Overy's tech innovation space

Bringing together tech companies, clients and A&O experts to develop practical solutions to legal, regulatory and deal-related issues

What sets us apart

- The only physical space where clients, start-ups, mature tech companies and a top global law firm can co-develop solutions
- Targeting dealtech, as well as legaltech and regtech

Key benefits

"Allen & Overy's 'Fuse' provides a case study for how to launch a legal incubator and to harness its potential."

Breakdown of type of companies which have applied for cohort 2

COHORT 1 (SEPTEMBER 2017-FEBRUARY 2018)

Avvoka

A digital platform for streamlining the entire process of contract creation, commenting, approval, negotiation and signing – together with analytics over the resulting contract portfolio.

Corlytics

A provider of regulatory risk intelligence derived from regulators around the world, using forensic analysis and forecasting of fines and sentencing.

iManage

Provider of a document management system which recently acquired RAVN, a business developing natural language processing and machine learning technology to organise, discover and summarise documents.

Ithaca

A charitable not-for-profit enterprise aiming to create a mobile-responsive online technology platform to assist asylum seekers in gaining access to pro bono legal representation and advice.

Legatics

A company that turns 'paper and email' based legal processes, ranging from conditions precedent collection through know your customer checks, issues lists and deal 'bibles', into simple software.

Nivaura

An automated, end-to-end platform for the issue, administration, trading and performance of bonds and other financial instruments targeting, initially, small and medium-sized issuers.

Opus 2

Originally a developer of litigation and transcript management software, now also developing a tool to support lawyers with the prospectus verification process.

Vable

A provider of content aggregation, automation and intelligence software which allows information specialists to simplify the collection, organisation and distribution of current awareness from thousands of sources.

COHORT 2 (MAY-OCTOBER 2018)

Bloomsbury AI

An artificial intelligence start-up that uses natural language understanding, cognitive capabilities and machine learning to create automated and self-learning Smart Advisors.

Kira Systems

Creator of machine learning technology for document review and analysis. Kira helps automate the extraction and analysis of key provisions from both structured and unstructured contracts, accelerating and improving the accuracy of due diligence, deal points studies, general contract reviews, regulatory compliance and more.

Signal Media

An artificial intelligence media monitoring company that transforms information into accessible, actionable business knowledge. Signal will focus on a platform for global regulatory knowledge allows users to deliver relevant, up-to-date regulatory advice to clients in over 15 different geographies and covering 200+ regulators.

Neota Logic

A provider of automation software for the legal and compliance industries. Its AI-powered app development platform provides a toolset for professionals to build and deploy applications that automate legal expertise, processes and documents.

Legatics

A company that turns 'paper and email' based legal processes, ranging from conditions precedent collection through know your customer checks, issues lists and deal 'bibles', into simple software.

Avvoka

A digital platform for streamlining the entire process of contract creation, commenting, approval, negotiation and signing – together with analytics over the resulting contract portfolio.

Regnosys

A fintech company which combines programmatic compliance and open sourcing to drive change in the financial industry's approach to regulatory compliance.

Nivaura

An automated, end-to-end platform for the issue, administration, trading and performance of bonds and other financial instruments targeting, initially, small and medium-sized issuers.
