

International legal risk for banks and corporates

Legal Infrastructure Tables

A production of the Allen & Overy Global Law Intelligence Unit

Supplement to the Allen & Overy Global Law Intelligence Unit Paper on
“International legal risk for banks and corporates”

Volume II

April 2014 edition

Foreword

This volume II is a supplement to the paper of the Allen & Overy Global Law Intelligence Unit entitled “International Legal Risk for Banks and Corporates”, as volume I.

This supplement contains two tables of legal infrastructure indexes covering almost all of the countries in the world.

These tables are based on indexes compiled by the following:

- World Bank Doing Business 2013
- Heritage Foundation, Economic Freedom 2013
- World Economic Forum, Global Competitiveness 2013
- World Justice Project, 2012/2013
- Transparency International

The tables are described in more detail in chapter 14 of Volume I, together with a commentary.

The methodology we have adopted is to divide the rankings prepared by the compilers into four quarters, with blue at the top, red at the bottom, and green and yellow in between.

In the first set of tables, the countries are ranked alphabetically.

In the second set of tables, the countries are ranked according to GDP per capita, with rich countries coloured blue and very poor countries coloured red, again with green and yellow in between.

This latter ranking shows a high correlation between GDP per capita and legal infrastructure or rule of law.

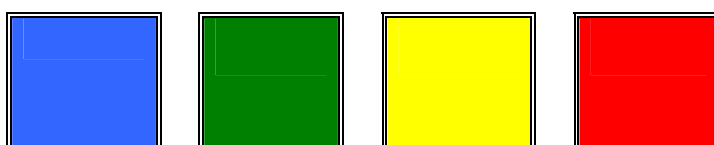

We respectfully acknowledge the prodigious amount of work put into the indexes we have tracked by their originators.

The tables in this publication were compiled by Melissa Hunt, Project Director at the Intelligence Unit.

Philip R Wood

Head of the Allen & Overy Intelligence Unit

April, 2014

Comparative Legal Infrastructure Indexes – Ranked Alphabetically
