### Transparency Directive

Allen & Overy's Transparency Directive website is an online guide that provides clients with access to legislation and A&O guidance on the TD and its implementation. It sets out key concepts found in the TD, provides advice on the impact of the TD on listing different types of security and provides details of the implementation of the TD in EEA member states.

The screenshot displays the Allen & Overy Transparency Directive website interface. At the top, there is a search bar and a navigation menu with links for Home, Legislation, Publications, Contacts, Advanced Search, Alert, Help, and Links. Below the navigation, there are sections for 'Recent Changes' and 'Key Concepts - EEA Wide'. The main content area shows a summary report for the 'Slovak Republic' regarding the 'Implementation Details - Summary Report', last updated on 24th January 2012. It identifies the National Bank of Slovakia as the central authority and notes the implementation of the PD Amending Directive through amendments to SEA and Act No. 566/2001 Coll. A table below shows the 'Incorporation of TD into National Law' with a 'Yes' response.
