

## Global Charity Partnership 2021 – 2023

### Criteria and key details

---

The focus of A&O's next Global Charity Partnership will be social mobility. Please ensure the application your charity puts forward fits within this theme.

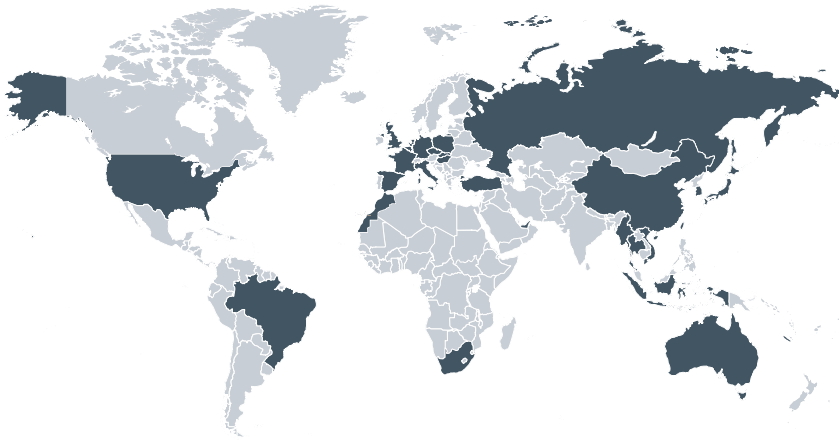

Projects could include education or employability initiatives for underrepresented groups, such as careers workshops or mentoring programmes, or inclusion work to reduce inequality of opportunity, for example promoting digital inclusion. These are examples, and charities are not limited to these when applying. The project may operate in any country or region.

To be eligible for the partnership, your organisation must:

Have a global annual income of at least GBP500,000, USD675,000, EUR550,000 (or equivalent in local currency)	Never have been A&O's global charity partner before
Be a registered charity in the UK	Be able to provide an account manager, ideally based in a location with access to London, for the duration of the partnership

The partnership brings together many different resources from across the firm to have a significant impact on the work of one charity. As well as fundraising, A&O uses the professional skills of its lawyers and support staff to benefit a charity in the long term. It is important to us that the impact of the partnership lasts well beyond its 23-month term.

A&O has over 40 offices around the world. Nearly every one of our offices has contributed to our current partnership with Hope and Homes for Children. It is important that our next charity partner can provide opportunities for people across our international network to engage in this partnership.

## Funding

---

The Allen & Overy Foundation will provide a grant of GBP50,000 in unrestricted funding in two instalments over the course of the partnership. We anticipate that you will use this to cover the costs of managing the partnership from your side.

A further one-off grant of GBP25,000 will be given at the beginning of the partnership for the project which A&O will support.

All other money given to the charity will be fundraised from A&O staff and partners.

The fundraising target for this partnership is GBP1 million. Our aim is to provide GBP500,000 in restricted funding for a specific project over two years. The rest of the funding will be unrestricted.

As this is a fundraising partnership, we cannot guarantee that we will raise a specific amount of money for the charity.

## Pro bono and professional support

---

As a leading international law firm, we will provide pro bono legal services and other professional support alongside opportunities to fundraise. This is an integral part of our partnership with you, and past successful Global Charity Partners have engaged with lawyers from across our international offices.

We have supported our partners with vital practical legal advice to strengthen their operations, in the areas of law including real estate, employment, data protection, corporate law and disputes. We have also worked with our partners on key strategic projects with a legal angle. Some examples of strategic legal projects are the development of advocacy toolkits to advance specific issues, such as sexual and reproductive health rights in Africa, the development of a legal-tech solution to improve access to information for frontline child protection workers, and multi-jurisdictional research on the implementation of the Convention on the Rights of the Child to assist the charity in its international advocacy strategy.

An example of professional support skills sharing is advice on diversity, equity and inclusion for our partner's senior management team, including identifying possible actions and barriers to becoming a diverse, equitable and inclusive organisation.

## How to apply

---

The deadline for applications is 17:00 GMT on 22 March 2021.
