Leading international firm in the Philippines

We have a leading reputation in the Philippines acting as international counsel. This is demonstrated by us being named “International Deal Firm of the Year” two years running in 2017 and 2016 at the ALB Philippine Law Awards and by being recognised, by the major directories, as a leading foreign law firm in the Philippines.

Whilst, in common with all international law firms, we do not practice Philippine law, the volume of transactions and disputes that we advise on with a Philippine nexus is such that we have a very close relationship with the country. This is supplemented by our team consisting of Philippine nationals and our lawyers on the ground. Our representation of both Philippine companies and non-Philippine companies with business interests in the country, gives us an in-depth understanding of the nuances of doing business in the Philippines. Our long standing experience has also given us the opportunity to build solid relationships with the government, local corporates and financial institutions, as well as with the leading Philippine law firms.

**Corporate/M&A**

We have acted on the largest, most complex and strategic M&A transactions related to the Philippines both inbound and outbound in recent years. We have developed the leading M&A practice in the ASEAN region demonstrated by us being named “M&A Team of the Year” for 2016 at the IFLR Asia Awards.

**Projects**

We have broad experience advising on infrastructure and power projects across all key sectors in the Philippines and the Asia-Pacific region, which provides us with an all-round vision and awareness of the infrastructure and power industry. The service we deliver is much more focused on the nature of the infrastructure than its constituent elements – such as raising of sponsor capital (private and public), creation or acquisition of infrastructure assets, limited recourse finance, bond issuances and other financing structures and refinancing, sale of assets or expansion of facilities and portfolio management.

**Banking**

Our banking practice globally is at the heart of the world’s finance markets and we have significant experience on the most complex cross-border transactions. Our expertise in banking and finance stretches across the whole spectrum of products including syndicated loans, acquisition/leveraged finance, Pre-IPO finance, real estate finance, and restructuring and distressed debt.

**Debt and equity capital markets**

Our capital markets practitioners have substantial experience with Philippine issuers, having advised issuers and underwriters on many of the Philippines’ high profile international offerings of debt and equity securities. In addition to supporting private companies and financial institutions, we regularly advise public sector entities and numerous state-owned companies.

**International arbitration**

We have a long-standing reputation in the Philippines in respect of our international arbitration practice, covering both commercial & investment treaty work. We regularly act for clients based in the Philippines who are involved in disputes elsewhere in the world.

International 
Deal Firm 
of the Year 
ALB Philippines Law 
Awards 2017 and 2016
HIGHLIGHTS OF OUR PHILIPPINES RELATED EXPERIENCE INCLUDE ADVISING:

**CORPORATE/M&A**
