Environmental, Social and Governance (ESG)

Managing risks and enhancing value

2019
Today’s investors are looking for ways to put their capital to work in a sustainable way, one focused on avoiding harm to people and the planet and creating long-term value through socially desirable activities. Financial services, insurance and other professionals now must find their way around a rapidly evolving landscape of environmental, social and governance (ESG) factors and assess businesses according to their ESG characteristics in order to support investors who wish to make socially responsible investment decisions.

Allen & Overy has the subject matter expertise to guide you safely through the increasingly legal ESG landscape. Our ESG Team’s advice is informed by decades of collective experience in environmental, social and governance matters, and by tracking the latest developments in ESG-related regulation and litigation around the world.

ESG is good business

A growing body of empirical evidence shows that sustainable investment goals can be aligned with – and can advance – financial objectives. When a company performs well on ESG criteria, it is often a key indicator that it is well managed overall, prepared to manage volatility and likely to perform better financially over time. Thus ESG characteristics increasingly are used to assess the financial soundness of funds and companies, as well as how prepared or “resilient” those investments are to longer-term challenges. Some socially responsible investors also want to use their wealth to further sustainable development goals and make a positive impact.

We can support you take advantage of such ESG-related business opportunities by helping you find ways to integrate ESG factors into your due diligence practices, portfolio analysis and investment decisions; design and roll out financial products that have a positive social or environmental impact; and monitor and report on your successes in a manner that meets regulatory requirements.

ESG is good legal practice

Legal risk mitigation objectives and sustainable investment strategies also go hand in hand. It is now common ground that investors’ duties around the world not only permit, but increasingly require, investors to embed ESG factors into investment processes. New regulatory risks also are emerging for investors and financial institutions, as governments respond to the international commitments States have made to address adverse ESG impacts— including with respect to climate change—by companies within their jurisdiction. Governments are employing ESG regulatory techniques that increase the legal, as well as reputational and financial, risks for businesses that fail to manage ESG issues effectively and for their investors and financial services providers. Private actors also are deploying a diverse array of litigation strategies regarding ESG issues, including against company directors and financial institutions.

We can provide you a map of this treacherous terrain and help you find ways to identify risks across your portfolio; avoid involvement in adverse ESG impacts; assess ESG related credit and other risks of your potential clients; gain a competitive advantage as regulation and litigation develops; design and roll out compliance processes and contractual mechanisms to mitigate risks; and obtain assurance and develop reports on your ESG performance.

ESG involves complex challenges

ESG is increasingly becoming a complex form of corporate governance involving significant legal issues. As the framework becomes underpinned by legal requirements, advice is required to head off the risks and take advantage of the opportunities this new investment environment presents.

We recognise that different clients are at different stages with respect to ESG issues, and confront different ESG issues, and we tailor our advice accordingly.
Achieving your sustainable investment goals

We can provide you practical advice to implement ESG considerations across your investments and help you meet your sustainable investment goals. While approaches to ESG vary depending on the particular asset class and its corresponding risks and opportunities, a few high-level ESG approaches apply across equities, fixed income, private equity, hedge funds, infrastructure investment, real estate, and other investments and asset classes:

- Integration: looking at investment decisions in a wider context than traditional financial analysis and including analysis of a range of risks and opportunities related to ESG drivers.
- Active ownership & voting: actively engaging with the managers and boards of directors of investee companies on business strategy and execution, including specific sustainability issues and policies.
- Negative and positive screening: incorporating an investor's principles by excluding or involving companies involved in certain activities or industries.
- Thematic: focusing on specific trends and themes such as human rights, the environment, diversity or demographics.
- ESG governance: ensuring that internal risk governance systems are capable of fully understanding and mitigating ESG risks.
- Engagement with portfolio companies: implementing meaningful ESG programmes (including KPIs) into the day-to-day operations of your portfolio investments.
- Devising sustainable investments, such as social impact or green loans.

We have the depth of resources through our international network of lawyers to help our clients, wherever they are in the world, achieve their commercial aims across the sector.

To help clients, Allen & Overy brings together global expertise in specialist practice areas in Environmental Law, Business and Human Rights, Sustainable Finance, Corporate Governance, Employee Engagement, Data protection and cybersecurity as well as Consulting Services.

Examples of A&O advisory support to financial institutions to mitigate ESG risk and capitalise on ESG opportunities:

- Assist in developing ESG policies and practices
- Design bespoke contractual mechanisms and dispute resolution clauses to permit leverage and exit
- Draft ESG management plans and codes of conduct for projects and transactions
- Conduct ESG due diligence and impact assessments on high-risk projects, transactions and lending
- Provide metrics and mechanisms as early warning systems and remediation processes
- Advise Board and C-Suite on regulatory landscape and litigation risks
- Identify potential ESG impacts, provide metrics and reports, sustainability and governance abuses
- Manage ESG due diligence for products such as green or social impact bonds
- Support clients before courts and tribunals, where they face claims involving alleged environmental, social and governance abuses
- Devise sustainable investments, such as social impact or green loans

Achieving your sustainable finance goals

Allen & Overy has extensive experience of working with clients in both the private and public sectors on sustainable financing, from corporate green loans or bonds, sustainable supply chain financing to financing renewable projects.

Management of reputational risk is currently a key driver for most clients but regulatory changes will be transformational for the market when they come into force. Certain borrowers may be required to disclose information on sustainability issues as part of their annual report, or green loans.

Across the sustainable bond and more nascent sustainable loan markets, Allen & Overy can navigate you through this fast-changing market and its evolving standards.

We have the depth of resources through our international network of lawyers to help our clients, wherever they are in the world, achieve their commercial aims across the sector.

How can we help?

We want to prepare our clients for the next step in the ESG evolution – enabling them to stay one step ahead and navigate the ever-changing ESG landscape. We also see significant opportunities for those clients who are adapting to these new challenges.
A leading firm in ESG risk management

Numerous clients in the financial services and other sectors on their obligations to report on human rights issues under the Modern Slavery Act.

A global investment bank on an ESG review in respect of its proposed role in connection with the acquisition of a West African mining company.

A number of private equity clients on ESG reviews in the context of proposed acquisitions, including in respect of the target companies’ compliance with the Voluntary Principles on Security and Human Rights and domestic environmental regulation.

Numerous multinational corporates and a conglomerate on the management of supply chain risks including compliance with the UN Guiding Principles on Business and Human Rights and carrying out human rights due diligence.

The sponsor of an African energy project on the management of the project’s bribery and money laundering risks and related mitigation measures.

Corporate clients on reviews of their emergency plans and procedures to deal with major health and safety and environmental events. This also included numerous presentations to boards and management on the development of policies and the implementation of appropriate procedures.

An oil major on the management of its international climate litigation.

A State-owned development finance institution on its responsibilities under the United Nations Guiding Principles on Business and Human Rights with respect to its lending and investment activities.

A mining company on transnational tort litigation with respect to human rights issues and state security forces.

A European company with a complex supply chain in the agricultural sector, on designing a system of operational level grievance mechanisms.

A renewable energy company in conducting an assessment of the company’s approach to security and human rights, including in relation to its memorandum of understanding with State security forces, and implementing reforms.

One of the world’s largest mining companies on a range of human rights related risks in Africa and Australasia.

Numerous banks and fintechs on the implementation of AML policies and procedures.

An oil major on the management of its international climate litigation.

A major American company with a vast and complex supply chain, in designing human rights compliance systems.

A major telecommunications company on joining the Global Compact and other multi stakeholder initiatives, its own code of conduct and related legal risks.

A U.S. investment bank on anti-money laundering, anti-bribery and sanctions risks and policies in connection with the proposed acquisition of a trading business.

A consortium of asset managers and pension funds on a major energy investment in a country emerging from a long-running civil conflict.

A privately-held conglomerate, advising and training its in-house lawyers on a range of issues arising under the UN Guiding Principles on Business and Human Rights.

A natural resource company on reforming an operational level grievance mechanism and revising security and human rights policies and practices in relation to police and private security.

A State-owned development finance institution on its responsibilities under the United Nations Guiding Principles on Business and Human Rights with respect to its lending and investment activities.

A major international hedge fund in relation to the hacking and theft of highly valuable confidential information and trading strategies by a rogue employee. This was a critical case for the client and involved civil and criminal proceedings in multiple jurisdictions to ensure that the breach was controlled and the employee extradited for criminal trial.

A Middle-Eastern energy company on a cross-jurisdictional review on bribery and corruption laws, covering 22 countries, which led to an update on the client’s global ABAC policies.

A U.S. investment bank on anti-money laundering, anti-bribery and sanctions risks and policies in connection with the proposed acquisition of a trading business.

A major American company with a vast and complex supply chain, in designing human rights compliance systems.

A major telecommunications company on joining the Global Compact and other multi stakeholder initiatives, its own code of conduct and related legal risks.

A U.S. investment bank on anti-money laundering, anti-bribery and sanctions risks and policies in connection with the proposed acquisition of a trading business.

A major telecommunications company on joining the Global Compact and other multi stakeholder initiatives, its own code of conduct and related legal risks.

Tim Conduit
Partner, Capital Markets
Tel +44 20 3088 2066
tim.conduit@allenovery.com

Tim has significant experience of sustainable finance products, across the bank, bond, private placement and structured finance markets. He has specific expertise in infrastructure and energy financings in the renewable energy space, including onshore and offshore wind and PV/solar projects. Tim is an expert in non-bank financing techniques for infrastructure and energy, including project bonds. For example, Tim was involved in most of the transactions to close using the EIB’s Project Bond Credit Enhancement product, as well as on the development of that product and similar products designed to facilitate the use of non-bank financing in the capital markets. More recently, Tim has been involved in initiatives with the World Bank and Global Infrastructure Hub to provide guidance on public-private partnerships to governmental authorities in emerging markets, including on sustainability and climate change-related issues.

“Tim Conduit receives plaudits… garnering praise from interviewees who note that “he is very good and he really knows his stuff in that area.”
Chambers UK 2018

Greg Brown
Partner, Banking
Tel +44 20 3088 4760
greg.brown@allenovery.com

Greg has experience acting for both lenders and borrowers with work covering a wide range of debt financing practice areas, including corporate lending, fund finance, trade and commodity finance and acquisition finance.
Greg is also the head of Allen & Overy’s Social Finance and Impact Investment Group. Greg has been involved in structuring sustainable and other impact investments for over a decade, acting both for borrowers and funders in that sector.
Greg is ranked as a leading individual in Trade Finance by Legal 500: “Stand out on high-end and complex deals.” Legal 500 UK 2014: Finance: Trade Finance

“Greg Brown is pragmatic, very user-friendly and sociable”
Chambers UK

Catherine Lang-Anderson
Partner, Banking
Tel +44 20 3088 2030
catherine.lang-anderson@allenovery.com

Catherine is a Partner in the banking practice at Allen & Overy. Catherine is a key member of our global trade, commodities and supply chain finance practice and regularly acts on deals involving commodities traders and other industry players. She advises UK and global industry bodies on legal and regulatory issues affecting the trade and commodity finance community and is a regular contributor to trade finance publications. Catherine regularly speaks at industry events on sustainability in trade and supply chain finance.
Catherine Lang-Anderson was recently listed in the FT & HERoes 50 Female Future Leaders list 2018.

David Campbell
Partner – Banking
Tel +44 20 3088 4758
david.campbell@allenovery.com

David is a partner in A&O’s banking department and has a wide range of expertise which includes investment grade and leveraged finance, restructuring and distressed refinancings, trade finance, and acquisition finance for public and private bids in the UK, US, Europe and Australia. He has acted for most major banks and his corporate relationships include seven FTSE-100 and FTSE-250 companies. Among David’s recent transactions are a sustainable financing for a leading European renewables group.

“Looks to get the deal done but never loses sight of his client in the process.”… ‘Someone who manages to deliver for the banks and the borrowers in the same breath.’
Chambers UK – Banking & Finance 2016

Melissa Samuel
Partner, Banking
Tel +44 20 3088 4361
melissa.samuel@allenovery.com

Melissa has been a Partner at Allen & Overy for 10 years, advising on a broad range of financing matters. Her experience includes acting on a variety of sustainable financing facilities – from those which specify a purpose which meets the LMA’s Green Loan Principles or include a requirement to hold a minimum level of sustainable assets, to those where the margin ratchet reflects the borrower’s compliance with defined sustainability criteria (which frequently require certification of verification by third party experts). For example, she acted for Stora Enso OYJ on their 2017 ESG Indexed loan for general corporate purposes.

“Melissa Samuel is… tipped for the top and is ‘competent, calm and a delight to deal with on complex, high-value deals.’”
Chambers UK

James Roe
Partner, Corporate and Equity
Capital Markets
Tel +44 20 3088 4637
james.roe@allenovery.com

James is a corporate and equity capital markets partner based in the London office. Through his experience acting on public offerings and corporate transactions by public companies in multiple jurisdictions, and regularly providing advice to boards, senior executives and members of the investment and advisory community, he has built a wealth of knowledge and practical experience of corporate governance and an understanding of the myriad of ESG related issues that organisations face. James is recognised by both Chambers and Legal 500 as a leading individual for ECM.

“He is brilliant… he is very knowledgeable and has expertise in emerging market work.”
Chambers UK – Equity Capital Markets 2019
